

CONTAINERS 4-500 I

Insulated pallet containers under 400-500 litres

High insulated containers in sizes 400, 450 and 460.
Heavy-duty containers in sizes 400 and 460.

Capacity

Size 400 has a capacity of 400 litres.
Size 450 and 460 have a capacity of 430 litres.

Meat and poultry industry

Size 400, type heavy duty, was designed in collaboration with the Danish Meat Research Institute (SF) for use in the processing, storage and transportation of all kinds of meat and poultry. Also widely used in the fish and other food industries.

Thick insulation

Type 450 has the thickest insulation of any container with a capacity under 900 litres.

Minimize pressure on content.

Size 460 is 15 cm shallower than size 660 and ideal for use in situations where it is important to minimise pressure.

ISO 6780 international transportation standard

Sizes 400 and 450 fulfil ISO 6780 requirements.

Stacking, with or without lids

Size 400 is stackable with size 600 and 700
Size 460 is stackable with size 660.
