

CONTAINERS 900-1300 I

Insulated pallet containers under 1000-1300 litres

High insulated containers in sizes 1000, 1010 and 1400. This capacity range is not available as heavy-duty type.

Capacity

Size 1000 has a capacity of 960 litres.

Size 1010 has a capacity of 930 litres.

Size 1400 has a capacity of 1250 litres.

Saltfish, salmon, shrimp, ham

These sizes are very suitable for saltfish processing, transport of fish, salmon farming and shrimp processing and are used by supermarket chains for the salting of ham.

Container transportation

Size 1010 is tailored to the container transportation environment. Its design means that 20% more containers can be loaded into DC/HC containers than of size 1000.

Tuna container, size 1400

The largest insulated pallet container on the market with 70-mm thick (average) PUR insulation. Designed for large fish (e.g. tuna and swordfish on ice) and use in warm climates

Stacking, with or without lids

Sizes 1000 and 1010 are stackable with each other.

	Tub order no.	Height	Width	Length	Capacity litres
 SIZE 1000	20170 PUR	89	120	150	960
 SIZE 1010	20173 PUR	88	117	147	930
 SIZE 1400	20176 PUR	88	117	199	1250
