

## HANDLING

Borgarplast containers are easy to handle. They can be lifted by hand-pallet and forklift truck, and rotated 180° or hoisted fully loaded. Different sizes can be stacked together.

### Lifting and turning

Containers complying with the ISO 6780 standard allow four-way access by hand-pallet truck and forklift truck.

Other containers allow two-way access by hand-pallet truck and four-way by forklift truck.

All containers have secure handles, which allow them to be hoisted when fully loaded and facilitate movement of empty containers.

### Stacking, with or without lids

Sizes 400, 600 and 700 stack together.

Sizes 460, 660 stack together.

Sizes 1000 and 1010 stack together.
